

I don't have a FB page for my business only on Linked in... so the one in the UK is probably an organization with the same name as Nexus..

I have semi-retired my business name but still have a consulting website at www.nigelsouthway.com

But I use my name on that site as I am more known directly that way after 25 years as a manufacturing consultant across North America, China and eastern bloc countries.

My main sites are

Personal FB at [Facebook https://www.facebook.com/nsouthway](https://www.facebook.com/nsouthway)

Linked in <https://www.linkedin.com/in/nigelsouthway/>

I have some FB and linked in Groups under the name Take Back Manufacturing which is my latest book .. www.nigelsouthway.org

I write articles on Substack at [Take Back Manufacturing | Nigel Southway | Substack https://nigelsouthway.substack.com/](https://nigelsouthway.substack.com/)

I am an author for 2 books see them at amazon under my name..

I am an advocate for manufacturing and a member of CLINTEL and the CO2 Coalition and I am a climate realist.

I live in Oakville Canada and relocated from UK in 1978.. so I am a Canadian now.

I hope this clears up your question.
